

TF-45

SUITABLE FOR: MIES AND PAXTON

TF-45 FIXATION SYSTEM

The TF-45 fixation system, wraps the horizontal ends of the fine spiral mesh to form a sleeve where a rod can be inserted across the width.

From this rod, threaded sockets are equally spaced and provide the load.

All materials are made from AISI316 stainless steel material.

A powder coated finish can be applied upon request. The TF-45 fixation system is applicable to the following mesh patterns: Mies and Paxton.
